# Wedding Day MMS Application

- Please text us as many of your wedding day pictures and messages you'd like to this number
(513) 586-6535

- Your messages will be displayed on a publicly available website hosted on Amazon Web Services

- Serverless application - so unless we get an unexpected million or so guests, it should be able to handle the traffic

- Bonus points if you send a selfie with your name as the only text at some point

## WEDDING DAY TEXTS

*Capturing your special day, the millennial way*
